

## Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

d. Antennae twice as long as head, usual sense cones present on segment 3.

e. Bristles of the anterior and posterior margins of prothorax about equal.

f. Antennal segments 3-6 bright yellow; abdominal spines (except those of the tube) slender and faint; prothorax about 1.5 times as wide as long.

*H. verbasci* (Osborn)

ff. Antennal segments 3-6 light brown or yellow; abdominal spines stout and conspicuous; prothorax about twice as wide as long.....*H. variabilis* (Crawford).

ee. Bristles of the anterior margin of the prothorax much shorter.

f. No interlocated hairs on wing.....*H. malifloris* Hood.

ff. About 20 interlocated hairs.

*H. orlando* Watson and Osborn.

dd. Antennae less than twice the length of the head.

e. No sense cones on the inner surface of segment 3.

f. Prothorax less than twice as wide as long.

g. Only antennal segment 3 entirely yellow or brownish yellow.

h. Antennal segment 3 shorter than 2.

*H. graminis* Hood.

hh. Antennal segment 3 longer than 2.

*H. pini* (Watson) (*Cryptothrips pini* Wats.)

ff. Prothorax nearly or quite twice as wide as long.

g. Antennal segments 3-6 yellow, 3 longer than 2.

*H. faurei* Hood.

gg. Only antennal segment 3 yellow, shorter than 2.

*H. humilis* Hood.

ee. Sense cones present on segment 3.....*H. querci* Wats.

cc. Wings clouded with gray with a nearly black area at the base and a paler one just before the middle, 2 interlocated hairs.

*H. nubilipennis* Hood.
